

# Dr. Hesham A. K. Ibrahim

## Emergency Medicine Consultant, UK.

### Qualifications

- MBBCh, Ain Shams University, Egypt.
- Certified by the Egyptian Fellowship of Emergency Medicine (EgFEM).
- Certified by the European Board Examination in Emergency Medicine (EBEEM).
- Fellow of the Royal College of Emergency Medicine (FRCEM) in UK by examination.

### Specialist interests

- Emergency cardiology & ECG interpretation.
- Ultrasound Scan applications in Emergency Medicine.
- Teaching & Medical Education, so he is the founder & course director of the Emergency Physicians ECG Course (EPEC), From Zero to Hero in ACS course, regular speaker in many international EM conferences, instructor in the European Resuscitation Council (ERC), Resuscitation Council UK (RCUK), Egyptian Resuscitation Council (EgRC), Royal College of Surgeons (RCS) & American College of Surgeons (ACS).

## COURSE OBJECTIVES

### By the end of the course, you will be able to:

- Spot ACS ECG changes with more confidence; covering new different guidelines, new signs related to ECG interpretation, commonly missed signs of MI, how to anticipate ST elevation before it happens, ischemia detection in presence of BBB, and in the paced rhythm, plus discussing changes in concepts that have happened in the last few years
- Manage some difficult arrhythmia in special circumstances, e.g. with WPW
- Have a clear D.D when it comes to 'Syncope & ECG'
- Understand and spot the non-cardiac cause of ECG abnormalities
- Manage ECGs that look similar but with completely different diagnoses and management plans in the ED setting
